

# **Integrated Pest Management for Cultural Heritage**

## 4<sup>th</sup> international conference

### Stockholm, 21–23 May 2019

**Tuesday May 21<sup>st</sup>**

1<sup>st</sup> day's theme: **Communicating IPM**

08:30 **REGISTRATION AND COFFEE**

10:00 **Welcoming address**  
Swedish National Heritage Board

10:15 **Introduction**  
**International Pest Management**  
David Pinniger

10:50 **Session no 1**  
**Are we really integrating pest management?**

**Train the trainer**

**Building a Team: establishing and leveraging a Preservation Liaison system at Princeton University Library**

**Social Butterflies: Social media as a tool for promoting IPM education**

12:10 **LUNCH**

13:30 **Session no 2**  
**Standardizing and communicating IPM data**

**Implementing novel ways of communicating pest monitoring data**

**The step by step implementation of IPM routines at Moderna Museet, Stockholm**

**We have an IPM-standard – now what?**

14:50 **COFFEE BREAK AND POSTER SESSION**

15:30 **Session no 3**  
**What is the threat from webbing clothes moths?**

**Bringing IPM to historic ships in the UK**

**Practical emergency plans in the case of pest attack in museums**

**Socializing IPM**

17:00 **Conclusion of 1<sup>st</sup> days sessions**

19:00 **RECEPTION AT THE CITY HALL OF STOCKHOLM, HOSTED BY THE CITY OF STOCKHOLM**

# **Integrated Pest Management for Cultural Heritage**

## 4<sup>th</sup> international conference

### Stockholm, 21–23 May 2019

**Wednesday May 22<sup>nd</sup>**

2<sup>nd</sup> day's theme: IPM in the era of globalisation

- 09:00 **Session no 4**  
**Handling the increasing problem with grey silverfish (*Ctenolepisma longicaudata*) in museums and archives**
- Ctenolepisma longicaudata (Grey silverfish): occurrence and behaviour in UK heritage organisations**
  - Remote sensor technology for rodent surveillance in museums: Pilot study at the American Museum of Natural History**
  - Effectiveness and safety of alpha-cypermethrin impregnated polyethylene mosquito netting for pest management of clothes moths (*Tineidae*), powderpost beetles (*Lyctidae*) and carpet beetles (*Dermestidae*)**
- 10:20 **COFFEE BREAK**
- 11:00 **Session no 5**  
**Management of an active infestation caused by *Lyctus* at the graphic documents framing service of the National Library of France: the role of the IPM team in the risks assessment and the coordination of all stakeholders – a case study**
- Neuronic™ system – a professional tool allowing the conservators to recognize insect species and classify the potential related risks**
  - Pesticides and their heritage**
- 12:00 **LUNCH**
- 13:30 **Session no 6**  
**Capability and limitation of anoxic treatments in museum collections protection**
- Anoxic treatment or freezing? Consider your options**
  - Killing me softly... Adaptive freezing processes for reliable pest control with minimum physical load to artworks**
- 14:50 **COFFEE BREAK AND POSTER SESSION**
- 15:30 **Session no 7**  
**Application of humidified heat treatment to entire historic wooden buildings at Nikko World Heritage site to control insect attack**
- Sniffing dogs in the detection of biscuit beetle (*Stegobium paniceum*) infestations in historic libraries**
- 16:30 Conclusion of 2<sup>nd</sup> days sessions
- 19:00 **CONFERENCE RECEPTION AT THE NATIONAL MUSEUM**

# Integrated Pest Management for Cultural Heritage

## 4<sup>th</sup> international conference

Stockholm, 21–23 May 2019

### Thursday May 23<sup>rd</sup>

3<sup>rd</sup> day's theme: IPM in a changing climate

- 9:00 **Session no 8**  
**A call for systematic monitoring: exploring the link between risk assessments and climate change impacts to cultural heritage**
- Better safe than sorry? – Mould management at Skokloster Castle**
- Mould in Swedish churches**
- 10:20 **COFFEE BREAK AND POSTER SESSION**
- 11:00 **Session no 9**  
**Wood-destroying insects in historic buildings – The importance of microclimate at climate change**
- Furniture beetle behaving badly**
- 11:40 **Closure**  
**Teaching IPM – from correct identification to effective prevention**  
Pascal Querner, University of Natural Resources and Life Sciences-Institute of Zoology, Vienna
- 12:00 **Final session: the way forward**  
Recapitulation of the session part of the conference
- 12:30 **LUNCH**
- 13:45 **Excursion**  
Choose between different excursion options
- 16:00 **End of the conference**

### Friday May 24<sup>th</sup>

- 8:00 **Extra one-day excursion to Skokloster Castle**  
–16:00 for conference participants who have not got enough of IPM yet  
Note: An extra fee will be charged.
